The experimental year for the seventh and eighth grade school is completed and we believe it has been a profitable one.

The time formerly spent with these pupils has been used to good advantage in improving the work in the lower grades. If the new school is to be continued, suitable grounds and building should be provided. It has been suggested to the committee at various times that this town have a high school. It might be wise for the town to consider this suggestion as the tuition at Nashua is constantly increasing and would go far toward supporting a one-room high school. A feasible plan would be to unite with a neighboring town to this end. We are assured on good authority, that it is the small high school that is doing the best work.

The finances did not permit of hiring a music teacher the past year.

We thank Mrs. Hyde who gave her services in teaching music, in the new school during the spring term,

also Miss E. G. Russell for her efforts in the same line since the first of January.

We are truly grateful to Mr. Harry Atwood and all who helped to establish the new school and otherwise contributed to its success.

MRS. J. K. SHERBURNE,

For the School Board.

Library Report

TRUSTEE'S REPORT

The Public Library seems in much the same condition as indicated in last year's report. The circulation is practically the same.

We wish to acknowledge the gift early in the year of over one hundred valuable and useful books by an old time resident, Mr. Rueben E. Griffin of Haverhill.

A new lot of books will soon be placed on the shelves and we trust the public will enjoy and make use of them.

One very gratifying feature of this year's work has been the beginning made in the use of the Library by the pupils of the Seventh and Eighth Grades. From the younger generation the readers must be recruited, and books recommended by the teacher will often induce a child to go still farther in the perusal of really good literature.

FRANK M. WOODBURY,
CHARLES W. HOBBS,
