*To the Selectmen:*

Each year there is a demand for a statement on forest fires for publication in the annual town report. It is believed they serve a good purpose in reminding local citizens of the danger from such fires and how they can help prevent them. The following is offered with respectful request for publication in your town report.

Sincerely,

JOHN H. FOSTER,  
*State Forester.*

*Forest Fires — Our Most Shameful Waste*

Everyone apparently fears fire but too many are careless with it. This is particularly true of fires in and near woodlands. Official figures show that more than 98 per cent of all forest fires result from human carelessness and can be prevented. Consequently, we may say "Forest fires are our most shameful waste."

Annual forest fire losses are tremendous and their effects far reaching. Such fires destroy the raw products of the forests, the protection forests provide for game and the supply of ground water. They upset local economies by drawing men from gainful employment and requiring the expenditures of public funds to extinguish them.

Our forest fire organization is doing a good job in keeping the size of fires small but the number of fires is increasing. In 1949 there were 100 more fires in New Hampshire than in 1948, but they burned 500 acres less. For the warden and his deputies to do the job they are capable of, they must have the cooperation of the public — YOU!

The primary objective of all fire fighters is PREVENTION — fire stoppage. This is the goal toward which your local forest fire warden and his deputies are constantly working. It can be achieved ONLY if YOU and YOU and YOU cooperate with them. It is worth YOUR effort and can be accomplished by:

1. Being careful with fire in or near woodland, being particularly careful with matches and cigarettes.

2. Securing the required written permit from the warden when the ground is not covered with snow.
3. Insisting that others be careful and comply with burning requirements.
4. Calling the warden promptly when fire is detected and aiding him to extinguish it.

Let's reduce the number of forest fires and eliminate our most shameful waste.

## STATE CHILD HEALTH AND IMMUNIZATION CLINIC

---

The annual child health examination and immunization clinic was held in Pelham Town Hall on the afternoon of June 9, 1949.

Of the fifty-eight children attending, there were seventeen infants and forty-one of preschool age, of these, thirty-five were without defects.

Eight children were vaccinated against small pox, thirty-five were given a booster dose of serum to help prevent diphtheria, whooping cough and tetanus.

Dr. John Quigley and Dr. Otto Goldcamp were in the examination rooms assisted by Betsy Muzzey, R.N., and M. Currier, R.N.

Elinor Burton, R.N., and Anna Horskins, R.N., the local school nurse, weighed and measured each child before he was examined.

Mrs. Mable Burton was chairman of the committee in charge. She got the mothers and children in to the examination rooms in numerical order. Mr. Cookson of Nashua Red Cross chapter furnished transportation, assisted by Mrs. Clara Jack, R.N., who directed her to the various homes.

Mrs. Carla Hobbs, Mrs. Theresa Muldoon, Mrs. Elinor Burton, R.N., Mrs. Morrisette and other members of the Legion auxiliary served on the committee, and added considerably to the success of the clinic.

This was the first state clinic since their inception on July 21, 1926, at which Mrs. Alice Overlock was unable to take an active part. She was at Lowell General Hospital recuperating from the effects of a fractured hip. However, the local mothers and committee workers honored her years of interest and whole-hearted service by having a beautiful bouquet of red roses brought to her room at two o'clock, the hour the clinic started.

After the clinic a call was made on each child with any physical defect to discuss means of correction. Thus we aim to have each child a well child on entering school.

## REPORT OF SUPERINTENDENT OF SCHOOLS

---

*To the Pelham School Board:*

It is with pleasure I herewith submit my first brief report on your school system.

The crisis in public education has been receiving nationwide publicity. This crisis is upon us because of a rapidly increasing birth rate, a reluctance to raise teachers' salaries in line with wages in industry and the inability to construct needed new buildings during and immediately following the war. The most optimistic say it will face us for at least ten years and the Federal Census Bureau sees no real relief from the increased school population.

In surveying your own system to see how well it is equipped to meet this crisis you can justifiably feel a certain sense of pride. It is equipped to meet the crisis better than the majority of districts in the State.

The Ernest G. Sherburne School will provide the needed space to absorb the increased school population for several years to come. It is a building that both pupils and teachers should enjoy and it should develop a sense of pride that will in turn make better citizens of our young people. Pupil morale can make a great difference in the amount of school work a group will do.

As soon as the undeveloped areas, such as the lunch room and playground area, are completed there will be little to be desired as far as an adequate up-to-date school plant is concerned.

You are fortunate in having a staff of teachers who are conscientious and hard working. Every effort should be made to keep these teachers. Although there is now an over supply of secondary teachers, our colleges are graduating only about one-eighth the number of elementary teachers needed to take care of the normal turnover plus the additional ones needed due to the addition of new classes.

The first part of the year was difficult for both pupils and teachers but I feel confident that the children are now catching up on any school work they may have lost due to the construction of the new building.

It is my hope that the school will be used to the fullest extent possible. As time progresses I am sure the teachers will find many opportunities to expand their programs over and beyond anything possible under the limited facilities previously in existence. More and more the public should begin to make use of the building for public gatherings. A plant such as yours is too expensive an undertaking to be used only during school hours.

In conclusion I should like to thank the School Board for the fine cooperation shown me thus far. It is a real inspiration to work with a School Board, parents and teachers who seem to have the best interests of the children at heart and are willing to give these interests a first place in their thinking.

HENRY J. HASTINGS,  
*Superintendent of Schools.*

## REPORT OF THE SCHOOL NURSE

---

Pelham, N. H.  
February 1, 1950

*To the Superintendent of Schools, the School Board, and  
the Citizens of the Town of Pelham:*

I herewith submit my annual report as school nurse, from July, 1, 1948 to July 1, 1949.

Number of pupils examined (3 examinations)	510
Number of pupils having defective vision	17
Number of pupils having defective hearing	2
Number of pupils having defective tonsils	13
Number of pupils having defective permanent teeth	12
Number of pupils having pediculosis	10
Number of pupils having measles	41
Number of pupils having mumps	43
Number of pupils having scarlet fever	6
Number of visits	161
Number of school visits	128

This school year our pupils have had more contagious diseases than they have had in previous years but this is true of all the communities surrounding Pelham.

Several children have been taken to the Balch Clinic in Manchester, N. H., for Orthopedic defects and are responding well to treatments. Two are also attending speech clinics with very good results. Parents are cooperating: providing glasses and having tonsils removed and also having teeth looked at by their dentists.

I would like to thank the Superintendent, the School Board, the teachers, and all the parents who have cooperated with me trying to keep our Pelham school children in the best of health.

Respectfully submitted,

ANNA M. HORSKIN, R.N.,  
*School Nurse.*
