REPORT OF SCHOOL COMMITTEE
Of its Investigation of Neighboring High Schools

The last annual School District meeting directed the School Committee to investigate the high schools of the neighboring communities with a view of learning their scholastic standing, the tuition they would charge if we signed a five year contract with them and if there would be a saving in tuition that could be applied toward the cost of transportation of our high school students.

Our findings are as follows:

School	Tuition	Will sign contract?
Dracut	\$180	yes
Hudson	225	yes
Lawrence	160	no
Lowell	200	yes
Methuen	165	no
Nashua	252	yes
Salem	225	yes (1 year)

The scholastic standing of each of these schools meets the requirements of the State Board of Education.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Pelham School Board:

I herewith submit my second annual report on the condition of your school.

The past year has been highlighted by the following developments: (1) A tremendous upsurge of interest in the schools by civic and fraternal organizations, (2) The first full year of occupancy of the new addition, and (3) the launching of a noon hot lunch program.

Very few school districts can boast of as much layman participation in improving the physical plant as was shown this past year. The project sponsored by the Grange seemed to be a very optimistic one when it was first started, but the results were beyond expectation and the response from all groups was very gratifying. Many hundreds of dollars would have had to be expended to obtain the same results if the work were done by contractors. All may well be proud of the entire building and feel that the work was appreciated by youngsters and parents alike.

This first year has seen the school begin to show the benefits to the children and the community a new school can and should provide. With all teachers having single grades, more individual help can be given and much enrichment of the school program is possible. The pupils and teachers are beginning to realize the greater possibilities now present and are taking advantage of them. Another year should prove to be even more rich in new experience and better teaching techniques.

A great deal of time and effort has been spent in successfully starting the hot lunch program. The fact that more than 60% of the pupils eat a hot meal at the school shows its need and its popularity. The cooperation of the women, through the P. T. A., has made this project possible. No one realized the time that your board has put into providing facilities for the kitchen. A lot of credit should also go to Mr. Smith Horskin, who has given unstintingly of his time, equipment and materials to see that many items which

could not be purchased were made and given to the school.

The effects of the present crisis in world affairs on the schools will be felt in shortages of certain supplies and possibly text books. The cost of these items will undoubtedly increase.

The biggest single effect can be expected in the form of a shortage of elementary teachers more critical than we have yet seen. Every school district should carefully consider the part that salaries play in keeping and obtaining able teachers.

The fine cooperation of the school board, teachers, and parents has made this year an enjoyable one. It is only through such cooperation that our schools can continue to improve.

Respectfully submitted,

HENRY J. HASTINGS,
Superintendent.
